Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished?

ABSOLUTELY! WE GOT ACQUAINTED WITH ALMOST ALL OF OUR CLASSMATES RIGHT ON THE FIRST DAY ITSELF, SO YES THE MISSION SURE WAS ACCOMPLISHED.

What should we (BOOST ambassadors) do differently?

I THINK THE BOOST AMBASSADORS DID A GREAT JOB, ESPECIALLY WITH THE TREASURE HUNT. TAKING TIME FROM YOUR BUSY SCHEDULE AND MAKING US FEEL WELCOMED WAS THE BEST THING WE COULD ASK FOR!

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

THE FACT THAT ISA WORKS ON SO MANY DIFFERENT ASPECTS WAS INTRIGUING.

What was the most important info about the BOOST program (research + training presentation)?

THE THOUGHT BEHIND THE BOOST PROGRAMME TO TACKLE THE PROBLEMS TODAY IS INTERESTING AND LOOKING FORWARD TO IT.

Questions?

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished?

I Think yes.

What should we (BOOST ambassadors) do differently?

Nothing, I think This days improve the integration of foreign student ~~we~~ each others.

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

For me, the most important information was the study at each level of plant interaction (from genetics and molecular biology to improvement of agricultural techniques)

What was the most important info about the BOOST program (research + training presentation)?

~~The most important information was given to me by a researcher of the PhD student of boost,~~

I Think its the diversity of course

Questions?

No

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished? yes!

What should we (BOOST ambassadors) do differently?

It was really nice for me But I have something personal against charades, everyone was a delight.
Thank you all!

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

the focus on cooperation between different disciplines. and different trophic levels In terms of Research to achieve the goals set In ISA.

What was the most important info about the BOOST program (research + training presentation)?

The possibility to specilize In different areas of research (wide topics covered) In the feild of plant protection with many teams + labs

Questions?

Where is the library located? :)

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished?

yes I think that the mission is accomplished, I talk with all of the Msc 1 students and ask them their phone number to help us because I am french so I could help them to discover the Town and for administration.

What should we (BOOST ambassadors) do differently?

Maybe doing some activities just with the Msc 1 because I was a little bit lost, I didn't know who were in my level (Msc1 or Msc 2)

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

The 6 priorities of ISA.

What was the most important info about the BOOST program (research + training presentation)?

The 5 items on BOOST projects.

Questions?

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished? Yes!

It was a very nice introduction!
It was funny ☺

What should we (BOOST ambassadors) do differently?

Maybe for the informations part do a more complete powerpoint, so that we don't spend time on remembering all the infos. → because it is easy to get bored and to want to sleep like small children (I think it is not English)

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

They are research/teaching & innovation
One of the biggest science pool in France
We will have a good time here!

What was the most important info about the BOOST program (research + training presentation)?

The goal is to study the biotic interaction around the cultivated plants to decrease the amount chemical pesticides

Questions?

No.

I only would like to have the timetable, start the courses and see if I am able to do it!

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished?

- Yes definitly, we met the M2 students and the Boost ambassadors, they were too friendly and nice to us, And ready to answer any question.

What should we (BOOST ambassadors) do differently?

the Boost ambassadors are an old Msc Boost students, they are here to help the new Msc Boost student, ~~to integrate~~ welcome them ~~and~~ be there if they need an information about or the program or other things..

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

- the ISA is the center where the Msc Boost program, is was chosen to be able (as a Boost student) to have connection with the reaserchers.

What was the most important info about the BOOST program (research + training presentation)?

- the most important info, is we ~~can~~ can continue our phd after the two years of master (Msc Boost)

Questions?

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished?

Yes

What should we (BOOST ambassadors) do differently?

Replace the charades with something else, it wasn't as engaging as the rest of the activities.

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

That it is an UMR.

What was the most important info about the BOOST program (research + training presentation)?

We will be in contact with scientists throughout the program.

Questions?

Some insight on career possibilities after the program.
Details on the customizable aspect of the BOOST program.

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished? yes, oui

What should we (BOOST ambassadors) do differently?

→ give us information about every thing in the Course

→ help us during our study

→ answer our questions during the year

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

I Think (ISA) is on of the top instituss in france and in The EU in General.

What was the most important info about the BOOST program (research + training presentation)?

The Boost program is ~~one~~ ~~of the~~ the Best program for ~~people~~ plant health and plant protection - I am sure that I am in the right place

Questions?

1 * How Can we learn french? - It's hard for us To understand the people outside The Course

* Can we find a part time job? Its Important to find a job to discover the Country and to support our selves

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished?

Yes, it was sucessifuly accomplished.

What should we (BOOST ambassadors) do differently?

Regarding the problem I had, i think boost A. must have an idea in wich day each student arrives in Nice to provide them a propely aid.

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

I was glad to know that ISA is the first working in Biocontrol and the position of the institut + UCA in terms of ranking in France, wich gives us the real demostration of his importance in France.

What was the most important info about the BOOST program (research + training presentation)?

It's to know differents areas/departments/lines of research driven by the institut.

Questions?

In Worldwide, wich position occupies the program in comparison to similar programs all over the world, wich impact it has in another countries?

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished? Yes, Absolutly.

I liked the activites because it was a funny way to know each other

What should we (BOOST ambassadors) do differently?

they are always ready to help us if we need help ^^

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

+ It's on the top 10 as a best institut of researches
+ It has coordination with lot of companies specialised in the plant protection

What was the most important info about the BOOST program (research + training presentation)?

+ inter disciplinary in plant protection
+ It is based on 5 axes that are related to: innovation, biodiversity, ecotoxicology and bioengineering

Questions?

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished?

The mission was successfully accomplished. The M2 student and the BOOST ambassadors were too kind and they welcomed us with a great smile so for it's yes. The welcome was a success

What should we (BOOST ambassadors) do differently?

- For me, it was perfect. No comment.

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

That is a was awarded one of the best institute of scientific researches in France. that focalises on Innovative strategies for fait health.

What was the most important info about the BOOST program (research + training presentation)?

Questions?

- Can we do internships outside of France ?

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished?

⇒ Yes, I feel the mission to know eachother accomplished properly.

What should we (BOOST ambassadors) do differently?

⇒ Helping the new ~~fres~~ ~~be~~ students to know about how Study will go in M1 years; and establishing close connection with each new beginner so that they can help beginner in more better days to come.

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

⇒ The most important information about the Institut Sophia Agrobiotech is that it ~~does~~ is not only ademic based program but it connects with industry and stakeholders Also it finds new generation to continue to work on biocontrol and plant health.

What was the most important info about the BOOST program (research + training presentation)?

⇒ The most important information about the BOOST program (research + training presentation) was ISA projects and different infrastructure of ISA projects available here in university like analytical, biological whose ultimate goals is to develop tools to enhance plant health.

Questions?

⇒ No questions.

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished?

The mission is accomplished. Yesterday was a great first meeting day. I was stressed about the new program, new start and the games, the explanations and the treasure hunt were all fun and great things to know each others and discover the place ☺

What should we (BOOST ambassadors) do differently?

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

The important info about ISA is that this institut is an association of INRAE, UCA, and CNRS. All these are trying to find new ways to feed the planet and researchers work on interactions : plants / bacteria, plants / nematods, plants / insects...

What was the most important info about the BOOST program (research + training presentation)?

The important info about the BOOST program is that this program was created to find new ways to feed the planet without to use pesticids or degrade environment. It's composed with a research part and a teaching part.

Questions?

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished?

The mission have been accomplished.
Thanks to this activity, I spoke with differents students of the master BOOST, and learn to know them.

What should we (BOOST ambassadors) do differently?

They should be do realise activities between M1. and g.

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

The most important info about the ISA (Institut Sophia Agrobiotech) was the explication of the differents researchs that takes place in the institut.

What was the most important info about the BOOST program (research + training presentation)?

The most important info about the BOOST program was the ~~connection~~ conexion between students and scientifics of this institut.

Questions?

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished?

Yes the dinamics were really fun and the most important is that I start to know my classmates

What should we (BOOST ambassadors) do differently?

Nothing, everything was cool

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

understand how the research center and their facilities work and what and how are the priorities of ISA, in order to have a guide line.

What was the most important info about the BOOST program (research + training presentation)?

Comprehend the boost project and notice the intersectorial teams and subjects, that exist in the Boost program.
- the main topics that we are going to see

Questions?

Not yet.

Asking for (anonymous) feedback

Day 1 - Getting to know each other

Is the mission accomplished?

Ans: No

What should we (BOOST ambassadors) do differently?

Ans: The Boost ambassadors should present everyday to solve M1 Student's problem.

Day 2 - BOOST introduction

What was the most important info about the "Institut Sophia Agrobiotech"?

Ans: The most important info was that the ISA is collaborated with so many companies.

What was the most important info about the BOOST program (research + training presentation)?

Ans: The research and training will take place at the ISA.

Questions?

1. How can we get to know the ISA scientists?
2. When will we get the final class nature?
